VERONI active isotonic

Perfect hydration and regeneration

VERONI active Isotonic

Non-carbonated drink based on natural mineral water. Thanks to the osmolality of 290 mOsm/kg, perfectly hydrates the organism, by providing minerals and electrolytes lost during physical exercises. High physical activity causes that body loses not only water, but also minerals and vitamins. Thanks to the proper amount of nutrients, minerals and vitamins such as B3, B5, B6, B7, B9 and B12, effectively delays the feeling of fatigue during exercises. VERONI active Isotonic is the perfect support for our organism in the gym, during running or cycling.

We're here

for you

Zbyszko Company S.A. has been operating dynamically on the Polish market since 1993. With years of experience and excellent knowledge of the industry and customer expectations, **we can boast a unique range of well-known and appreciated products.**

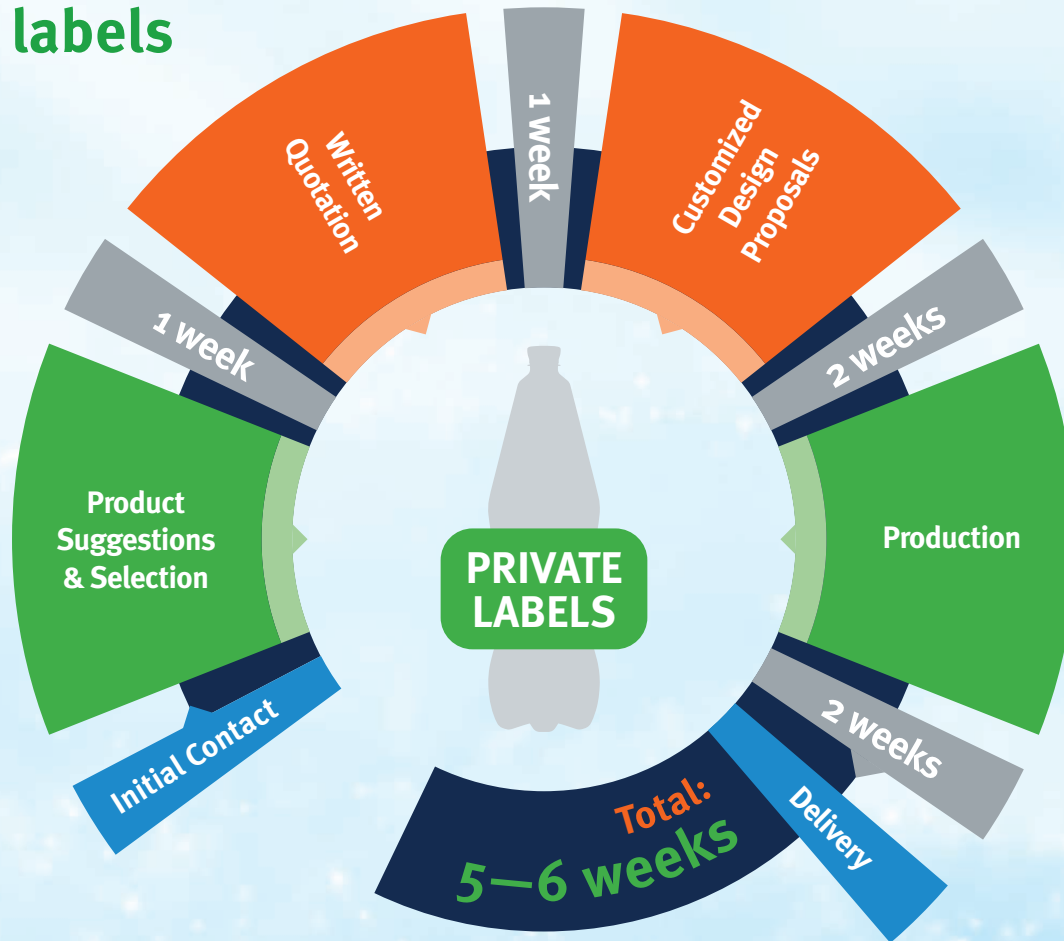

Our offer includes carbonated and non-carbonated fruit beverages, mineral water and water with added juice, as well as excellent quality NFC juices. Individual product lines address the expectations of adults, adolescents, and children alike.

We are gradually expanding not only our portfolio, but also our infrastructure. We focus on new technologies and innovations, e.g. aseptic packaging. With two plants and 6

production lines, the company is able to produce more than 140,000 bottles of 1.5 liters per hour. We also have two high storage warehouses, with a total of 25,000 euro-pallets and the following certificates: BRC, FDA.

Private labels

Process of delivery: step by step

Define your needs. Define product type you are looking for, package, recipe and important considerations regarding food legislation.

We will present our ideas. As soon as Zbyszko has received all the necessary information we will provide the client with some proposals and product samples: both new and existing recipes which can be used by the client.

› **The minimum amount for production depends on the product's recipe, type of bottle.**

Artworks. After approving the recipe and package, the client develops artwork › **manufacturer can present its ideas as well.**

Contract & First production. When all the product elements are approved (recipe, package and artwork), the contract should be signed and first production will take place. The production is always accompanied by multiple qualified employees to assure the end result meets the client's standards.

Delivery. Manufacturer delivers the products to the client or the client arranges logistics by themselves.
